The Airbus A320 family is a family of jet airliners. It only has two rows of seats, which means it is a narrow-body plane. The family is made by Airbus and it is made up of the A318, A319, A320 and A321, as well as the ACJ business jet. The A320 family is made in Toulouse, France, and Ham-

burg, Germany.

Additionally, the A321 has a slightly increased wing surface area. The A318 was an unsuccessful attempt by Airbus to make an RJ (regional jet), but their current RJ, the 'A220' is in fact the Bombardier CSeries. To cut a long story short, Bombardier was unsuccessful at selling these aircraft, so Airbus took a 50.1% stake in the programme.
