Clarify the business model - surprisingly, many of the 80% of mergers and acquisitions that fail to achieve the intended results do not clarify their business model upfront and stick to it. This is a critical success factor, as it provides a clear vision for the organization.

Mergers and acquisitions: key success factors. The chances of failure to achieve the desired outcome in a merger are between 60

and 80 percent, or so we are told by those whose business it is to analyse these matters. By this, one understands that should a merger fail to materialise, it is not necessarily that the merger is a complete failure but rather that it fails to measure up to the expectations of the parties involved.
