The social construction of gender comes out of the general school of thought entitled social constructionism. Social constructionism proposes that everything people "know" or see as "reality" is partially, if not entirely, socially situated. To say that something is socially constructed does not mitigate the power of the concept.

Essay on The Social Construction of Gender Roles - 848 ...

The social construction of gender and sexuality all rely on the measure that people believe there is a difference between the two sexes, once this emphasis is taken away, is when gender roles will no longer play an integral role in the structure of society.

Gender is a very touchy subject these days - whether you believe it's a social construct or you don't. Both sides of the argument seem to overlook evidence on the opposing view.

Gender is the structure of social relations that centres on the reproductive arena, and the set of practices (governed by this structure) that bring reproductive distinctions between bodies into social processes.

Gender And The Social Construction

The social construction of gender is a theory in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles, and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex.

Social construction of gender - Wikipedia

Social constructionism proposes that everything people "know" or see as "reality" is partially, if not entirely, socially situated. To say that something is socially constructed does not mitigate the power of the concept.

The Social Construction of Gender | Introduction to Sociology

About once every generation, it becomes intellectually fashionable to believe that gender or gender identity is a malleable trait, largely devoid of biological imperatives and at the mercy of parental initiatives or other social forces. Within time, these narratives meet an inevitable backlash from the natural sciences and the furor dies down, only to repeat itself twenty or so years later.

Is Gender a Social Construct? - Quillette

The Social Construction of Gender. Gender is socially constructed and a result of sociocultural influences throughout an individual's development (Schneider, Gruman & Coutts, 2005). Gender identity can be affected by, and is different from one society to another depending on the way the members of society evaluate the role of females and males.

The Social Construction of Gender - Applied Social Psychology

Gender is a social construction. Even if you take the most extreme biological determinist stance (which a lot of the "gender isn't a social construction" crowd take), you cannot deny the following: What it means to be a "woman" or "man" changes over time (often within the timeframe of a generation — ask your grandparents if you don't believe me).
