10 Amazing Science Magic Tricks!

The purpose of science magic tricks is to

entertain the audience and get them thinking about how the phenomena work. Basically, tricks raise interest in science. Of course, this is science, not magic! In 1973, in Profiles of the Future, Arthur C. Clarke said, " Any sufficiently advanced technology is indistinguishable from magic."

Make coins disappear, bend spoons, and read through sealed envelopes! Anyone can be a magician with the help of this guide, which explains how to perform mystifying sleight-of-hand maneuvers and feats of mental agility with playing cards and common household items. Humorously illustrated, step-by-step directions explain the magic behind dozens of captivating tricks.

Here at Science Sparks HQ we love a bit of magic, whether it be a memory trick, slight of hand or even science magic. These 10 easy science tricks for kids are great fun and mostly super simple. The density one is a little tricky and possibly messy, but well worth the effort for the incredible end result.

Magic tricks are fun, sure, but there's even more to it: Magic is good for kids, asserts Nicholas "Magical Nick" Pugh, a Pennsylvania-based magician. "Learning magic

tricks at a young age builds confidence and helps with social building skills, especially if the child tends to be a little shy," he says.
