Kozo Yamamura finds the source of capitalism's malaise in the heart of developed world consumption patterns. In short, we consume 'too much stuff' at the higher end of the value chain. This 'stuff,' he argues, is a function of post-capitalism - it comprises goods and services that generations before now would have considered unnecessary but which we consider necessities.

[Full Version Too Much Stuff: Capitalism in Crisis For ...](#)

Too much stuff is an accessible and clearly written book for anyone with an interest in economics who is wondering "where next" for government economic policy. The sub-title is important. Rather than critiquing consumerism, Yamamura attempts to diagnose why advanced economies are "sick", and how we could rein-vigorate capitalism.

In Too Much Stuff, Yamamura upends conventional capitalist wisdom to provide a new approach. He suggests the only way for capitalism and democracy to thrive is to increase investment to meet societal needs such as improving social safety nets, infrastructure, and better education and health care for all, but this means raising taxes.

Too Much Stuff: Capitalism in Crisis by Kozo Yamamura (Policy Press, £7.99) KOZO YAMAMURA'S starting point in this short book is the parallel existence of two seemingly contradictory realities of modern economic life in the developed world.

In Too much stuff, Yamamura upends conventional capitalist wisdom to provide a new approach. He suggests the only way for capitalism and democracy to thrive is to increase investment to meet societal needs such as improving social safety nets, infras-

tructure, and better education and health care for all, but this means raising taxes.
