Violent Offenders. Appraising and Managing Risk Treating Violence: A Guide to Risk Management in Mental Health Violence Risk. Assessment and Management. Alec Buchanan. Journal of the American Academy of Psychiatry and the Law Online Sep 2009, 37 (3) 417-422; Share This Article: Copy.

In this provocative and controversial account, standardised risk assessment is

discussed in a critical, non-technical way, with a reminder that nobody can predict the future. There is advice for the clinician on when and how to use standardised assessment, along with a strong defence of clinical methods. Topics include: research on violence, mental health, and risk prediction; the ethics of ...

### **Treating Violence: A Guide to Risk Management in Mental ...**

Violence is a serious public health problem that affects people in all stages of life. Many who survive violence suffer physical, mental, and or emotional health problems throughout the rest of their lives. The CPSTF recommends intervention approaches to prevent violence and reduce harms associated with violence.

### **Violence Prevention | The Community Guide**

Evidence-Based Domestic Violence Perpetrator Treatment. Reliable evidence in the field of partner violence can also be obtained from Level I-III studies conducted with related populations (e.g., substance abusers, criminals, people with mental health issues). Level IV information is the least reliable and policies and interventions based on this alone cannot be considered evidence-based.
